

Benefits

ADVANCED POWER & PERFORMANCE SOLUTIONS PREMIUM QUALITY GREASE

BENEFITS

- **Reduced Wear**
- **Reduced Drag**
- **Reduced Friction**
- **Reduced Downtime**
- **Extended Parts Life**
- **Increased Protection Against Heat**
- **Repels Water and has Excellent Rust Protection**
- **Consistent Working Temperature Range (- 30° F to + 500° F)**

Advanced PPS Premium Quality Grease is a NLGI Grade 2. It is a calcium sulfonate complex. It has a wide temperature range, a very long-life, multi-purpose grease with exceptional water resistance and load bearing capability.

Advanced PPS Premium Quality Grease is a specially formulated high performance grease designed to handle high speeds over a wide temperature range.

It has proven to be a leader in bearing and suspension protection. Run through severe heat cycles, exposed to dirt, sand, water, and mud. This grease has survived and shown incredible results!

Compatibility with Advanced PPS Premium Quality Grease is not an issue. In most cases it is not necessary to purge existing grease from system.

APPLICATIONS

- Use Advanced PPS. Premium Quality Grease as the preferred lubricant, such as wheel bearings, kingpins, pivot points on equipment, high-speed bearings and pillow block bearings etc.
